O NAMA / *ABOUT US*

SPECIJALIZIRANI SMO za projektiranje aluminijskih sistema i daljnju preradu aluminija, od same ideje do finalnog proizvoda. Proizvodi koje nudimo tržištu su razne vrste aluminijskih konstrukcija koje se koriste u građevinarstvu i industriji. Svoj razvoj temeljimo isključivo na stvaranju vlastitog stručnog tima koji prati svjetske trendove u projektiranju i nudi kompletna rješenja za proizvodnju aluminijskih sistema. Aluminijski profili i sistemi svojim dizajnom mogu biti prilagođeni specifičnim potrebama klijenata u arhitekturi (fasade, prozori, vrata..) i industriji.

POSEBAN DIO naše ponude po kojem je tvrtka prepoznatljiva na tržištu čine: sistemi za graditeljstvo, sistemi koji su razvijani unutar kuće FEAL, a svoju primjenu mogu naći u različitim izvedbama modernog graditeljstva. Suvremenim opremanjem postrojenja za ekstrudiranje aluminija, elektrostatsko plastificiranje i anodno eloksiranje, kao i strojevima za obradu aluminijskih profila uspješno odgovaramo stalnim promjenama dinamičnog i zahtjevnog tržišta. U cijelom proizvodnom lancu koristimo modernu tehnologiju i sredstva zaštite te vršimo stalnu kontrolu prema zahtjevima norme ISO14001:2015, koja je jamac naše brige za okoliš.

POSJEDUJEMO CERTIFIKATE ISO 3834 i EN 15085-2, koji nam omogućavaju izvođenje zahtjevnih zavarenih aluminijskih konstrukcija. Svoje proizvode s površinskom zaštitom, proizvodimo sukladno certifikatima Qualicoat, Qualanod i Qualideco. Vršimo ispitivanje kvalitete FEAL-ovih sustava u ovlaštenim laboratorijima: IGH-Zagreb, IFT- Rosenheim i GBD Bregenz.

Osnovni slogan pod kojim poslujemo je:
SAVRŠENSTVO U ALUMINIJU

WE ARE SPECIALIZED in designing aluminium systems and the further processing of aluminium. Bearing in mind the dynamic and demanding market that is constantly changing, we answered with the modern equipment of the plant for aluminum extrusion, electrostatic powder coating and anodizing, as well as machinery for the processing of aluminium profiles. The products that we market are various types of aluminium structures used in construction and industry.

OUR DEVELOPMENT is based solely on creating our own team of experts that monitors global trends in design and offer a complete solutions for the production of aluminium. Alloy systems with its design can be adapted to the specific needs of clients in architecture and industry from concept to finalized product. In the whole production chain, we are using modern technology and means of protection, and we continued to control the standard requirements of ISO14001:2015, which is the guarantor of our concern for the environment.

WE OWN CERTIFICATES ISO 3834 and 15085-2, which allows us to perform demanding welded aluminum structures. Our products with surface-coating, are manufactured under the certificate Qualicoat, Qualanod and Qualideco. We test the quality of finished Feal systems in accredited laboratories: IGH Zagreb, IFT-Rosenheim and GBD Bregenz.

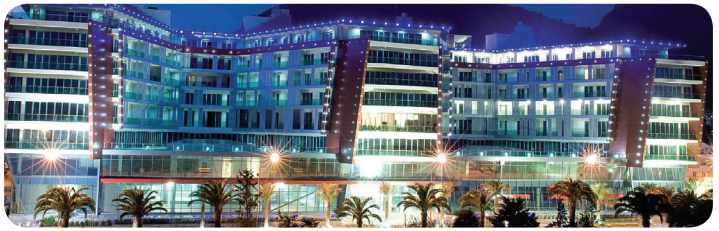

The main slogan under which we operate is:
PERFECTION IN ALUMINIUM
